

# Shree Bayali Basic School

Pokhara-21, Bayali

## ***Markus Sir Namaste***

You have touched our hearts, minds and faiths very deeply for the development of the school. We believe that we will continue this relationship for a very long time.

Markus Sir,

Last year, we built a stupa on the school premises in memory of the victims of the plane crash. We apologize for the in convenience caused by the year Covid-19.

If God supports us in the coming year, we will all meet at the school and have a deep love and cordial relationship with each other and move forward with a wide ranging discussion on the educational progress of the school and the students and the coming for social transformation.

## ***Marukus Sir,***

We are very happy with you and your team (Chiemgau biking). The support received by the school from you has gone a long way in making the future of the school and the students bright and beautiful and self reliant.

The school family is confident that the school will make great progress in the day to come with your help. So far, we have been discussing in the management committee the amount of assistance you have sent to the school and spending it on the specified title.

## ***Which is as follows:***

### **1) Orphan scholarship –**

We have spent the amount of orphan scholarship on the annual education of orphans. Tiffin, stationery, tuition fee, dress and others essentials are easily enjoyed by the students and their teaching activities are progressing very effectively.

## 2) **Teacher salary management** –

Since you started helping, we are managing the additional salary of two teachers at present. English medium education is being made in English language which has made the parents very happy. However, due to the Covid-19 this year, we have not been able to carry out teaching activities as we thought but we have continued to facilitate the students by adopting safety measures in the school.

We have also discussed with the school management committee that according to the previous year's program. The salary of two teachers and the orphan scholarship needs to be continued next year and some other programs need to be added.

## **More events** –

1. Launch for all students
2. Sports materials for children
